Cubix®

Cubix is a study of the visual relationship between two different geometric forms, the ring and the cube. In this most playful design, the stem becomes the central element, forming a pleasing visual extension of the cube form. The interplay of each of the elements is the perfect complement for the imaginative Flex 12 system. The Flex 12 Cubix includes features such as concealed wiring and is supplied with an integral, bayonet mount media cartridge that simultaneously accepts up to two 2" light control accessories.

Mamba®

The strikingly original, daring aesthetic of Mamba naturally extends the imagination of the distinctive Flex 12 system. The Mamba combines gracefully curved and tapered elements to produce a unique and totally unexpected result. Its front-loading gimbal ring design makes lamp maintenance simple and convenient. Mamba for Flex 12 low voltage is designed to use 50W MR16CG halogen lamps with integral cover glass.
