Six 40837-BAE in 41646-A insert in 80401-A wallplate  
CAT 5e Connector  
5G108-RA5 shown in photo insert

## DECORA® QuickPort® Snap-In Modules

QuickPort Snap-In Modules provide a full range of jacks, connectors and modules that fit a large family of housings. Communications wiring interfaces can be tailored to support the user's exact requirements for voice, data, video, audio and security applications.

### Features & Benefits

- Category 5e jacks are certified to meet TIA/EIA-568-B.2 and FCC Part 68 requirements
- Each modular jack's patented "cutting ledge" trims the wire during termination when used with the D814 punchdown tool
- Audio and video connectors require no soldering; connections can be made with easy-to-use tools
- All jacks feature color-coded wiring labels for fast, accurate terminations
- F-Type, RCA, Binding Posts, BNC and Banana jacks are available gold-plated. F-Type, and BNC jacks are also available nickel-plated
- Modules are listed in accordance with UL 1863, and fully compliant with NEC Article 800

### Commercial Grade
