### Vizia RF +® Home Controls

Join a revolution in the home automation industry with Vizia RF +® wireless lighting and home control technology. The innovative and affordable Vizia RF +® offers features that are desired by professional installers and appreciated by homeowners. It provides dramatic scene transitions, extended zone lighting control, industry standard two-way status updating and true integration of household electrical devices. Use Vizia RF +® to add functionality and reduce energy consumption in new construction and existing homes and residences.

Equipped with Z-Wave® home automation technology, Vizia RF +® allows tailoring of the perfect home control solution. Imagine a home in which the lighting automatically adapts to your needs. For example, in the kitchen, one button can slowly dim the ceiling light while subtly brightening the chandelier over the kitchen table. Vizia RF +® can control other rooms just as impressively. It also works well with exterior fixtures, enabling them to be controlled throughout the house.

The Vizia RF +® product line includes new customer-requested features that increase its options, such as 49 selectable fade rates, an Energy Save mode, customizable preset maximum and minimum brightness levels, and more control of locator LED activity.
