

How To Use This Catalog

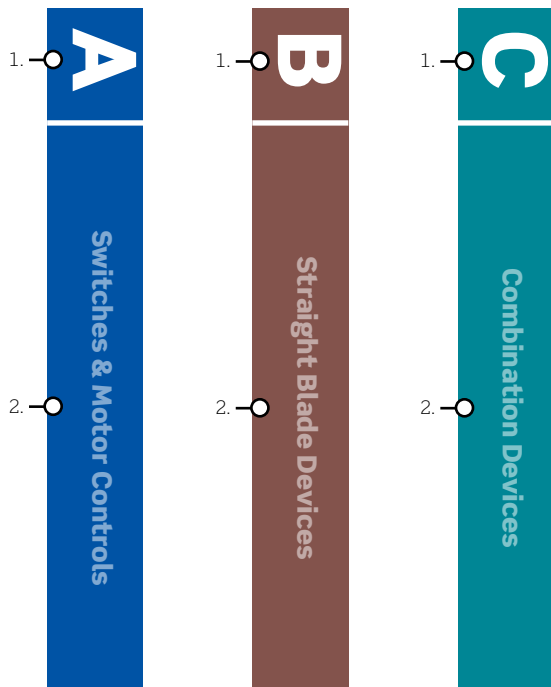

We've re-designed and reorganized our catalog to make it easier to use. The new organization is based upon product group and rating. The pages are numbered by section, each beginning with it's own contents page and color coded tabs for easy section identification. Basic dimensional drawings, wiring diagrams and material specifications have been excluded, except where necessary for product selection. All of the latest product-related technical and specification information is available at www.leviton.com

For catalog navigation you will find a green header located at the top outside corner of each page.

1. The top row is the SECTION TITLE and will label the family of devices found in that section.
2. The second row will list the GRADE of devices found on that page (where applicable).
3. The blue text below the header denotes the product category and listing. The **BOLD** text identifies the broader product category while the **LIGHT** text refers to the specific product listing found on the page below.

For section navigation you will find a color-coded tab located on the outside edge of each page.

1. SECTION alphabetical label.
2. SECTION title, product family.

For page navigation you will find the following heading styles used throughout the catalog:

1. **Product Group**
 2. **Product Sub-group**
 3. **Product Listing**
 4. **Product Sub-listing**
1. The **Green Bold** heading is a PRODUCT GROUP and is also listed in the TABLE OF CONTENTS.
 2. The **Green Light** heading is a PRODUCT SUB-GROUP and is also listed in the TABLE OF CONTENTS.
 3. The **Blue Bold** heading is a PRODUCT LISTING.
 4. The **Blue Light** heading is a PRODUCT SUB-LISTING.

To locate by product brand refer to the brand listing section. There you will find brief brand descriptions as well as product page references.

Brand	Description
a-2000®	The a-2000® series of modular dimming cabined theatrical-grade performance with the ability to handle architectural-type loads.
black & white®	Our signature Black & White® series plugs and outlets combine features that facilitate simple, fast installation and unsurpassed durability.

For color options you will find a color reference chart with name and suffix. Please add the appropriate color suffix to Cat. No. when ordering items.

Color Choices Available in the following colors:

For related products and wallplates you will find a listing on the bottom of each page where applicable.

Leviton also offers superior quality recessed devices. **See page Q-32 for more information.**

Wallplates

Find the right wallplate for any application. **See section T for Wallplates & Weather-Resistant Covers.**

RECEPTACLES | Lev-Lok® GFCIs

Lev-Lok® SmartlockPro® GFCI Receptacles

Features and Benefits

- GFCI receptacles have feed-through terminals for downstream protection
- Constructed with impact-resistant PBT cover
- Large triple-wipe, brass “T” line contacts on 20A for superior contact and conductivity
- The SmartlockPro® receptacle automatically tests the GFCI every time the RESET button is pushed. The GFCI will not reset if the GFCI circuit is not functioning properly
- Built-in end-of-life indication. If receptacle can no longer provide GFCI protection, it will not reset and no power will be supplied to the face
- Trip threshold meets or exceeds UL requirements for tripping time
- Right angle wiring module's thin profile makes it easier to place GFCI receptacle in the box
- #12 AWG THHN wire leads, 6" length on MSTWL series wiring modules
- Wiring module locks and latches to the receptacle body providing double the connection security
- Receptacle to be installed only with Leviton MSTWL series wiring modules
- MSTWL wiring module sold separately
