PM Cable Marking
For PF Labels

- Transparent holder for cable marking with Partex marking labels, tapes and tags for series PF, PL, PP or PFC.

- Four lengths, three widths cover most cable marking demands.

- Fitting and fastening with Ty-Rap® cable ties. (recommend TY524MX)

- Marking labels can be printed on-site using WSG-NG-EXCL software WinSign and various marking equipment.

- The label is easily inserted into the holder providing fast installation and protection of the marking.

Specifications

Design

Holder for marker tags with punched holes for mounting with cable ties. Two standard lenghts in two sizes 9 mm and 12 mm widths. Suitable marker labels and tags are PF on a A4 size sheet and tags on PFC X-cards in credit card formats. Also ProMark PP-profile tags and PL tapes can be used. The labels or tags are easily pushed into the holder and will be protected from dust, oil etc.

Material

Cadmium and silicon free soft PVC according to special formula.

Color

Transparent

Temperature Range

Shape permanence from -30°C to + 60°C
(-22°F to +140°F)

Resistance

The product is tested according to Partex Product Test programme by the Swedish National Test and Research Institute and has the following test properties:

– Flammability resistance according to UL94-V0.

– Resistant to UV radiation, corresponding to 1 year outdoors in the south of Sweden.

– Resistance to chemicals meets Partex Product test Programme.

– Resistance to temperature and ageing meets norms of Partex Product Test Programme.

For application in hostile enviroments, please contact your Regional Sales Office for information.

PM-24094AN	MK9-PL090CN	

Regarding PF marking labels, PF marking tags cable ties (see page 97). Normally Ty-Rap® of 2.8 mm (e.g. TY5232M) should be used.
4.8 mm widths
(e.g. TY525MX) are stronger but require more force to put through the punched holes of the PM sleeve.
