

Dragon Tooth® Magnet Wire Termination System

Splices for copper and aluminum magnet wire!

Wire Termination — Sta-Kon® Wire Termination & Insulation

Splices

- Penetrate all standard copper and aluminum magnet wire insulations
- Perfect for heavy Formvar, poly-thermaleze, polyester and polyurethane insulations

For special insulations, consult Technical Services.

* Reference dimension. See installing die illustration for gauging.

** Not recommended for aluminum magnet wire finer than 21 gauge. (a) Four wires max. (b) Six wires max. (c) Six wires max. each barrel.

(d) Conductors heavier than #6 AWG require special dies. Contact Thomas & Betts for assistance.

(e) Crimping dies may not bottom. Connector height will depend on number and size of wires in barrel. Pump must deliver 9800 psi minimum.

(f) Copper CMA, aluminum CMA=52,136–124,561.

† On a reel.

Note: Wire sizes and combinations shown have been tested to and meet or exceed Thomas & Betts specifications. Connectors may be suitable for other wire sizes or combinations. Thomas & Betts sells these connectors with the understanding that the user will perform necessary tests to determine their suitability for the intended purpose.
