

# Point of Sale Displays

## FS-POP Free-Standing Floor Display

Mersen's point of sale display brings best selling fuses within easy reach while promoting a self service environment. This unit not only acts as a silent efficient salesperson, but also as an eye-catching reminder to buy. The FS-POP consists of: metal gondola frame, slatwall, appealing header sign with cross reference guide, adjustable bins in practical sizes including, (12) standard, (6) wide and (6) large and bin labels for trouble-free identification. Instructions for assembly are included with each display.

Standard Bins (White): 5.11 (l) x 5.51 (w) x 3.81 (h) inches.

Wide Bins (White): 5.11 (l) x 11.42 (w) x 3.81 (h) inches.

Large Bins (Orange): 10.83 (l) x 11.0 (w) x 6.70 (h) inches.

\*FS-POP is shipped unassembled with instructions included to minimize risk of products being damaged during shipment.

## MFD / MFD300

The miniature fuse display, MFD, is a compact and organized solution to hold only the most popular glass fuses available. Order with or without fuses. The display can hold up to 300 fuses and is made from clear plastic which contains individual slots for supporting standard glass fuse packages. It is wall mountable. Included with the MFD is a paper insert with company logo and cross reference list. Order the MFD fully stocked with catalog number MFD300.

## GSMR

The Midget and Class CC fuse rack holds 400 fuses and is an automatic feeding system for standard 10 packs of midget and Class CC fuses. It is peg board and slatwall mountable.

## GSGFD

The GSGFD glass fuse display rack gives high visibility to fuses at the point of purchase. The GSGFD consists of a sturdy metal display rack with wall mounting hardware, 48 slots (each holds 12 standard 5-pack boxes for a possible display total of 576 boxes or 2,880 glass fuses), an attractive header sign, and a laminated glass fuse cross reference guide for quick and easy selection. The dimensions are 12.5 (w) x 29.5 (h) x 4 (d) inches.

## GSFC / GSFC-M

The Spare Fuse Cabinet provides dedicated storage space for spare fuses. It is made of heavy duty all-welded steel construction with primed and painted gray finish offering a good appearance and easy maintenance. A positive latching handle with cylinder lock and two keys will prevent unauthorized access. It comes in two sizes: the GSFC is 24 (w) x 36 (h) x 12 (d) inches (6 cubic feet) or the GSFC-M is 18 (w) x 24 (h) x 13 (d) inches (3.25 cubic feet).
