

	Features	Description	Catalog Number
Ignition Switches			
	<ul style="list-style-type: none"> • Secures power off • Prevents accidental activation of power circuits • Ideal for use with MPB11HD & MPB11M push button switches 	Battery Ignition Switch <ul style="list-style-type: none"> • 2 Position: Off / On • 10A @ 12V DC • Heavy duty brass construction • Mounts in panels up to 1" thick 	MIS11
	<ul style="list-style-type: none"> • Ideal ignition / starter replacement switch • Recommended for smaller boats 	Ignition / Starter Switch <ul style="list-style-type: none"> • 3 Position: Off, Ignition, Ignition & Start • 10A per circuit; 15A max. @ 12V DC • Heavy duty brass construction • Mounts in panels up to 1" thick 	MIS123
	<ul style="list-style-type: none"> • Same as MIS123 including accessory option • Ideal for accessory use without starting engine 	Ignition / Starter Switch <ul style="list-style-type: none"> • 4 Position: Accessory, Off, Ignition & Accessory, Ignition & Start • 10A per circuit; 15A max. at 12V DC • Heavy duty brass construction • Mount in panels up to 1" thick 	MIS123A
Push-Pull Switches			
	<ul style="list-style-type: none"> • General use switch, on / off switch • Recommended for inside cabin use • Ideal for manual control of an accessory, i.e. lights, bilge pump, blowers, etc. 	Push-Pull Switch <ul style="list-style-type: none"> • Two Position: Normally Off - Pull On • 10A @ 12V DC • Heavy duty brass construction • Mounts in panels up to 1" thick 	MPP11
	<ul style="list-style-type: none"> • Gasket sealed case enhances moisture resistance • Ideal for wipers 	Push-Pull Switch <ul style="list-style-type: none"> • Two Position: Normally Off - Pull On • 10A @ 12V DC • Heavy duty brass construction • Mounts in panels up to 3/4" thick 	MPP11S
	<ul style="list-style-type: none"> • Ideal for on / off switch in weather exposed locations • 12" leads allow for easy wiring 	Push - Pull Switch <ul style="list-style-type: none"> • 2 Position: Normally Off - Pull On • 10A @ 12V DC • Heavy duty brass construction • Rear vinyl enclosure for added protection • Mounts in panels up to 5/8" thick 	MPP11PL
	<ul style="list-style-type: none"> • Ideal for operating anchor & running lights • One switch permits operations of two circuits independently: <ul style="list-style-type: none"> - Anchor and running lights - Dual bilge pump controls - Dual wipe speed control 	Push - Pull Switch <ul style="list-style-type: none"> • 3 Position: Off, On #1 or On #2 • 10A @ 12V DC • Heavy duty brass construction • Mounts in panels up to 1" thick 	MPP123
Battery Selector & Disconnect Switches			
	<ul style="list-style-type: none"> • Compact design with simple on / off control • Permits total shut down of electrical system 	Battery Disconnect Switch <ul style="list-style-type: none"> • 2 Position: Off - On • 175A Continuous - 800A Intermittent; 6-36V DC • Extra heavy duty brass construction • Face plate included • U.L. Listed • Ignition protected • Mounts in panels up to 15/16" thick 	MBDS1
	<ul style="list-style-type: none"> • Permits control of independent or dual battery control • Master disconnect switch • Designed for your toughest applications • Surface or through panel mount (3 5/16" hole) 	Dual Selector & Master Disconnect Switch <ul style="list-style-type: none"> • 4 Position: Off, Battery #1, Battery #2, Both • 310A Continuous - 500A intermittent; 6-36V DC • U.L. Listed and Coast Guard Approved • Ignition protected 	MBDSS1
