

# FPL Series Face Plates

# HUBBELL

## Hubbell Premise Wiring

Hubbell Premise Wiring's FPL Series of single and double gang face plates provide an attractive wall mount option for Hubbell's extensive line of HD Series jacks and SF Series connectors. FPL plates offer traditional design. TIA/EIA 606 labels located over each of the screw mounting holes allow unique identification of each location.

Optional label area covers, colored and textured to match these plates, are also supplied if the labeling is not desired. Some common versions of these plates with stenciled port sites are also available to further document applications in multiport applications.

Single-gang FPL and FP plates are also designed with alignment forgiveness if the wall mount is not correct.

Our FP series plates are packaged 10 to a bag for convenience with larger projects and are available at a special volume price. FP series plates use smooth screw covers which will accept adhesive labels.

## FEATURES

- Accepts all HD jacks and snap in connector fittings
- Available in a variety of attractive colors
- Designed to accept UTP, Coax, and Fiber connectors
- Compatible with NEMA standard openings and boxes
- 10 Pack available in Office White FP series
- Optional stenciled port descriptions
