BLUE BRUTE

Blue Brute fittings are injection molded and are even tougher than the pipe. Blue Brute fittings have a wall thickness 25% greater than DR18 pipe, and some custom-made fabricated fittings are wrapped with a tough layer of fiberglass for extra protection.

STANDARDS

ADVANTAGES

- 1 Corrosion-Proof Performance**
Blue Brute systems are immune to corrosion from aggressive soils and galvanic action.
- 2 Superior Hydraulics**
The glass-like finish of PVC reduces friction losses and eliminates the tuberculation common in iron pipes. As a result, pumping costs are reduced and water quality is maintained.
- 3 Strength**
A thicker bell results in a more robust fitting.
- 4 Gasket Options**
All Blue Brute fittings are shipped with standard gaskets that accept cast-iron-sized PVC pipe. Transition gaskets for IPS-sized pipe are an option for all sizes. For applications where fittings must be buried in soil with hydrocarbon contamination, Nitrile gaskets are available.
- 5 Saves Time & Money**
A consistent O.D. for each size simplifies the restraint selection. Each fitting is labeled with the O.D. information for easy identification and restraint selection.
