Panelboards

Unassembled Reference

Type P1 unassembled panelboards are completely convertible from main lug to main breaker and vice-versa. Additionally, feed-thru lugs up to 400 ampere or subfeed circuit breakers up to 250 ampere can be added without increasing the box height for Revised P1 with "T" suffix, see the chart.

- 1. When BL / BQD or GB Main Breaker is chosen as back-fed in unit space, the Main Breaker will use 2 or 3 positions of unit space and will reduce usable branch circuit space.
- 2. List catalog number and price of interior, box and front.
- 3. Select main lug kit or main breaker kit from appropriate tables.
- Note: Main/Subfeed Breaker mounting kits may be ordered with or without breakers included, see page 11-11 and 11-12 for selection.
- 4. List required branch circuit breakers and filler plates to cover any unused positions.
- 5. Select any modifications or accessories.

Note: Revised P1 was introduced in 2015. All original P1 devices do not include the "Subfeed Space" Indicator. All original P1 included the Subfeed Space as standard.

Note: Standard bussing in P1 panels is tin plated for aluminum and copper. Standard bus is temperature rated to the maximum amperage in the panel.

Branch Breakers

Panel Type	Voltage (Max.) Breaker Type		Additional Information		
P1, Revised P1 ^①	240	BL, BLH, HBL, BQD, NGB, HGB, LGB			
	480 / 277	BQD, NGB, HGB, LGB,	See Page 11-13		
	600 / 347 ³	BQDG ² , NGB, HGB, LGB			

- Consult sales office for availability of CSA
- ² See Speedfax for additional information.
- © 600/347V options are not available in a UPB panel see factory assembled section.

Distributor Stock - Type P1 Panelboards

Pricing An Unassembled Panel

400A Max. — 20" Wide x 5.75" Deep

- 1. Choose the appropriate Interior from the table below.
- 2. Choose the Main Device: Main Lugs from page 11-11, Main Breaker Kit from pages 11-11 to 11-12 and Main Breakers from Section 7.
- 3. Choose Branch Breakers. BL, BQD and xGB breakers from Section 7.
- 4. Choose Feed-Thru Lugs or Subfeed Breaker Kit from pages 11-11 to 11-12 and Subfeed Breaker from Section 7.

across from one another. All other configurations allow 125A per connection max. (250A per pair max.)

WP74

42 circuit with Back-fed Main

54 circuit 400A

Front included in NEMA 3R and 3R/12 Box.
The New Revised P1 (18 circuit 250A only) is limited to 100A per connection (200A per pair) when installing Branch Breakers
