

833 Wide Range /Ergonomic Compact Design

The Marrette® 833 is an outstanding wire connector with an ergonomic wing design which can take a wide range of wire combinations ranging from #22 to #8 AWG.

External Cap

- Ergonomic wing design gives you a comfortable grip and more torque than the competition. The ergonomic shape reduces finger fatigue from repetitive installations.
- The ergonomic wing shape allows excellent torque grip for your fingers as well as the option to use a standard 1/2 in. or 13mm hex driver to help twist the Marrette.
- Made of tough durable polypropylene and 105°C rated to withstand high installation pressures.
- Deep, wide throat ensures full insulation coverage.
- Highly visible yellow colour: indicative of a secure connection for residential applications.

Inner Spring

- Exclusive Live Action® variable volume spring expands to accommodate even more wires with less twisting effort, compared to other wide range wire connectors.
- Range: #22 to #8, with no pre-twisting.
- The square wire spring construction and funnel design gives a positive pressure conductor grip for solid or stranded wires.
- Approved for circuits up to 600 V and lighting fixtures and signs up to 1000 V.
- For copper conductor only.
- Convenient packaging - sized right and job-site ready!

Can also be used with 1/2 in. or 13mm nut driver.
