EFBFF SERIES	64.5 in. <sup>3</sup>	[1056ml]	64.5 in. <sup>3</sup>	[1056ml]

### Finished Interior

Fully finished interior removes the unfinished industrial look while increasing visibility, making it easier to see where to plug in devices.

### Configurable with Removable Modules

In addition to having removable dividers and a tunnel feature that allows all compartments to be connected, the modules are removable through the top or back of the floor box. This allows for easier installations and facilitates moves, adds and changes without having to disconnect services, saving time and money.

### Audio/Video Design

Evolution Series Floor Boxes have been developed specifically with the A/V industry in mind. With 3 1/2" – 3 7/8" [89mm x 98mm] of wiring capacity behind each device plate, these boxes will accept devices from leading A/V manufacturers including Extron® Electronics and Crestron®.

### Durable 180° Articulating Hinge

Hinge design enables covers to open a full 180° and lie flat on the floor surface with the durability to support a large cover. Provides easy access to all interior modules and activations while reducing tripping hazards.

# EVOLUTION™ SERIES FLOOR BOXES

## Evolution™ Series 6-Gang Floor Boxes Ordering Information

### EFB6S 6-Gang Floor Box

Designed to be installed in concrete floors, raised floors, and wood floor applications. Box has a fully finished interior to assist plugging and unplugging of devices. Designed to work with standard size wall plates. **Box comes complete with all components needed for initial installation. Included components are:** Protective/ Disposable cover, tunnel system for connecting the two modules of compartments, two (2) removable modules, two (2) toggle clamps to secure box to raised and wood floors, two (2) cable management guides, two (2) leveling support legs for concrete applications and trade size knockouts ranging in size from 3/4" to 2" trade size. **Items not included with the box and sold separately are:** receptacles, communication jacks, and A/V devices and device plates. Box is compatible with Wiremold® Walkerflex Modular Wiring System. Custom options are available upon request.

**NOTE:** For use on bare (polished) concrete or terrazzo floors EFB610-CTR must be used (sold separately).
