

Lab Bench Pedestal Table Boxes

The new Lab Bench Pedestal Table Boxes provide increased capacity and access to multiple services in a variety of configurations to meet the demanding needs of laboratory activity. These field-wired units can be added to existing benches or designed into new lab construction. UL has evaluated these boxes for use on laboratory bench work surfaces. Pass & Seymour® receptacles were installed in the box and subjected to spill testing outlined in UL 111. The test results showed that there was no risk of fire or electrical shock as a result of the spill.

Lab Bench Pedestal Table Boxes provide access to power and communications services.

CODE REFERENCE

cULus Listed Metallic Outlet Boxes:

File E2961, Guide QCIT

Meets Article 314.27(C) of NEC

cULus Listed Multioutlet Assembly:
